Preface

Dear valued customers,

5 Star Trees Ltd. would like to thank you, our valued customers, for your support during the 2016 season. 2016 was a difficult year for many Albertans. We will continue to support our clients in whatever way possible, through these difficult economic times. Your success is of the utmost importance to us at 5 Star Trees Ltd, and we will continue to work alongside you, understanding the many problems and challenges that we all face.

We are continuing to expand our collection of local seed and bud wood wherever possible, which will ensure hardiness for our tough growing zone.

Our focus on our carbon footprint and towards protecting the environment has not wavered. Composting and Zero Till practices are standards we maintain. New high efficient electrical pumps for irrigation, along with low volume drip irrigation, reduces our water consumption and environmental impact. 5 Star Trees Ltd. considers the environment in every decision and step made.

5 Star Trees Ltd. is continuing with the Clean Plants Program, and are once again certified for the 2017 season.

With 325 certified acres in production, 5 Star Trees Ltd. Is considered a medium sized nursery, but with our production schedule and best growing practices, we will still bring you the newest and hardiest plants available on the market place. Our size also allows us to give you more personal, hands on service, in a quicker manner.

We are located 20 minutes south of Calgary near Aldersyde, and are ideally situated for pickups and deliveries. We invite you to visit our facility, just give us a call ahead of time, so we can ensure one of our knowledgeable staff is available to assist you!

Phone 403-256-2089 or visit www.5startrees.com for more information.

Terms and Conditions of Sale

Terms: Invoices are due upon delivery or pick-up. CREDIT ONLY on ESTABLISHED TRADE. Net 30 days from date of shipment or pick-up. OVERDUE accounts will be charged a service charge on the unpaid balance at a rate of 2% per month. No further credit will be extended if accounts are in arrears. BUYER agrees to pay attorney fees & other costs incurred for collection. New customers may pay with CASH, VISA, M/C, DEBIT or CERTIFIED CHEQUE made payable to 5 Star Trees prior to pick-up or delivery. Credit card payments are accepted at time of purchase at no extra charge. (FOR a PAYMENT of an INVOICE at ANY OTHER TIME with a CREDIT CARD, a 2% SERVICE CHARGE will be APPLIED.)

New Customers: New customers are required to pay by cash, credit card, debit card, or with a certified cheque.

Prices: All prices are F.O.B. at our Aldersyde farm. Prices subject to change without notice. G.S.T. is 5% extra.

Guarantee: We offer quality stock delivered in good condition. Due to factors beyond our control after delivery, no oral or implied warranty other than title applies to any stock.

Claims: Claims for any cause must be made in writing within 10 days after the arrival of stock & cannot exceed the original purchase price. We will not consider any claims after goods have been accepted. Claims made while in transit must be filed directly to the carrier.

Shipping: Please give any shipping directions, including delivery address, that you require at time of order; otherwise we ship to the best of our judgment without assuming responsibility. All shipments travel at the risk and expense of the purchaser. We require a minimum of one day notice for pick-ups and two day's notice for deliveries on our trucks & trailers.

Returns: All returned plants will be charged a 15% re-stocking fee for handling. This fee is based on the total, pre-tax, invoice amount.

Cancelled Orders: All cancelled orders will be charged a 15% fee. This fee is based on the total, pre-tax, invoice amount. This will be used to cover costs of preparing and releasing material on the order.

<i>Courageous Crab</i>	<i>Hot Wings Maple</i>	<i>Columnar Crab</i>

65 inch Tree Spade Moving Services

The cost for any tree moves is \$160 an hour round trip from our Aldersyde farm. Our spade can handle up to 6 inch caliper. The trees to be moved, **and the tree's new location, must be on level ground, must have 8ft of clearance around them, and the path to and from must be solid and dry.** We require valid underground locates be sent to our office, at least 2 days before the tree moves are to take place. Please give us a call to discuss further.

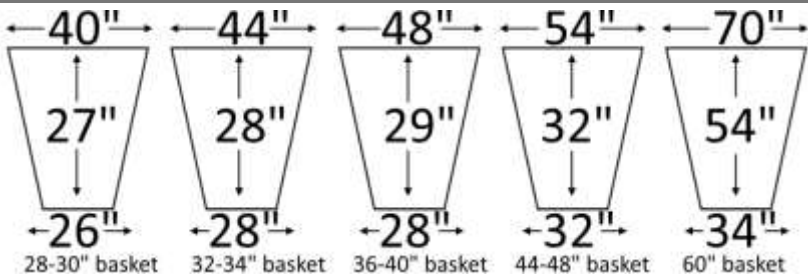

Caliper Tree Planting Services

The below pricing is for the areas of south Calgary, High River, Okotoks, and Nanton. Please give us a call for a quote on planting in other areas. Valid locates are required, before any planting occurs. Locates for underground services, must be faxed/emailed to our office, at least 2 days before tree planting is to occur. Locates can be provided by Alberta First Call, at 1-800-242-3447. We perform planting according to CNLA specs.

PLANTING CHARGES INCLUDE DELIVERY, DIGGING OVER-SIZED HOLES, FRESH LOAM, & REMOVAL OF EXCESS FILL.

No. of trees	30" to 36" rootball	40" to 60" rootball

5 Star Trees LTD.

Tree Delivery Service

- In order to supply our customers with the best service possible & get your deliveries when you need them, we require 48 hours notice.
- Picker crane truck with a deck for deliveries is charged out at a rate of \$135.00 per hour. Minimum 1 hour charge. Crane has a 25 ft. reach. Expect 15-20 trees per load, depending on size.
- Delivery van with a 53 ft. trailer is charged at \$145.00 per hour. Expect 24 carts per load. Minimum 1 hour charge.
- Semi truck with 53 ft. drop deck trailer is charged at \$145.00/hr. Customers need a method of unloading trees off of the semi-trailer at their job site with a skid steer loader or forklift. Expect 40 - 70 trees per load, depending on tree size.
- Tree Dolly may be rented for \$45.00 to move trees in your yard. The rental is good for the duration of the delivery stop, and will be **taken off site when the driver leaves. The dolly is good for up to 36"** baskets. Our driver will not provide assistance in moving trees with the dolly. Please ensure you have adequate staff to handle the tree moves.
- 5-Star Trees reserves right to implement a fuel surcharge/carbon tax if needed.
- The above rates are charged from the time truck leaves the nursery, until it returns to the nursery.
- For combo loads with more than one customer drop, a cost sharing rate will be implemented.

Seed Provenance

We are placing emphasis on our seed source selection, to ensure hardiness for our trading area. For example, our American Elm seed is collected locally from the center of Calgary, and our Trembling Aspen seed source is gathered at high elevation, in Fernie, B.C. One of its unique traits, is that it leafs out later than the other seed sources. This makes it unaffected by late spring frosts, as has occurred the last few years. We have a great crop of White Spruce maturing, with the seed collected in Cochrane, Alberta. Also, our Limber Pine seed was collected in Crowsnest Pass, AB. We are working on expanding our seed provenance to ensure you get the hardiest plants possible.

5 Star Trees LTD.

Mission Statement

5 Star Trees Ltd. is committed to producing and providing, the highest quality hardy plant material for our clients, while running environmental-ly friendly farms. Through honesty, wholesome values, hard work, and strict environmental practices, we will continue to create and foster long term relationships with our clients. Our client's success, and protecting the environment, are 5 Star Trees' highest priorities. We will work to our maximum capacity to ensure both are achieved.

NOTES

CONIFEROUS TREES

SPRUCE

White Spruce (*Picea glauca*)

Native tree with a pyramidal growth habit. Very hardy spruce with shorter, softer needles and smaller cones than Colorado Spruce. Likes moist soil and tolerates partial shade better than Colorado Spruce.

Height: 15 m	Spread: 5 m	
	Qty. 1-19	Qty. 20+
5 gal.....	\$49.00	
1.75m (5-6ft).....	\$278.50	
2.00m (6-7ft).....	\$322.00	\$306.50
2.25m (7-8ft).....	\$357.00	\$338.75
2.50m (8-9ft).....	\$413.00	\$385.00
3.00m (9-10ft).....	\$469.00	\$446.50
3.25m (10-11ft).....	\$530.50	\$455.00
3.50m (11-12ft).....	\$567.00	\$550.00

Bakeri Blue Spruce (*Picea pungens* 'Bakeri')

Conical evergreen tree with a symmetrical growth habit and bright blue needles. Good hardy substitute for Columnar Blue Spruce. Not damaged by May snows.

Height: 9 m	Spread: 3 m	
	Qty. 1-19	Qty. 20+
15 gal.....	\$210.00	
2.00m (6-7ft).....	\$385.00	\$371.00
2.25m (7-8ft).....	\$418.00	\$399.00
2.50m (8-9ft).....	\$448.00	\$427.00
3.00m (9-10ft).....	\$518.00	\$490.00
3.25m (10-11ft).....	\$558.00	\$544.00
3.50m (11-12ft).....	\$572.00	\$558.00

Conifer Fun Facts - Evergreen conifers retain most of their needles year round, giving the trees and shrubs a constant green appearance. Most conifers slowly shed their needles every two or three years, and new needles grow quickly. A few species of conifers have a needle lifespan of up to 17 years. The oldest living trees in the world, belong to the conifer family.

CONIFEROUS TREES

SPRUCE cont.

Colorado Spruce (*Picea pungens*)

Pyramidal growth habit. Sharp needles; blue, green, or bluish-green in color. Likes full sunlight and well-drained soil. Bluest cultivars are drought resistant.

Height: 15 m

Spread: 5 m

	Qty. 1-19	Qty. 20+
5 gal.....	\$ 42.00	
10 gal.....	\$105.00	
1.75m (5-6ft).....	\$245.00	
2.00m (6-7ft).....	\$306.50	\$296.75
2.25m (7-8ft).....	\$348.50	\$331.75
2.50m (8-9ft).....	\$385.00	\$365.50
3.00m (9-10ft).....	\$448.00	\$422.75
3.25m (10-11ft).....	\$553.00	\$525.00
3.50m (11-12ft).....	\$558.00	\$544.00
3.75m (12-13ft).....	\$586.00	\$572.00

Columnar Blue Spruce (*Picea pungens* 'Fastigiata')

Narrow upright growth habit for small spaces. Blue needle color.

Height: 6 m

Spread: 1.5 m

	Qty. 1-19	Qty. 20+
10 gal.....	\$210.00	\$199.50
15 gal.....	\$301.00	\$291.25
1.75m (5-6ft).....	\$371.00	\$354.25
2.00m (6-7ft).....	\$455.00	\$418.50
2.25m (7-8ft).....	\$488.75	\$453.75
2.50m (8-9ft).....	\$504.00	\$488.50
3.00m (9-10ft).....	\$558.50	\$544.50
3.25m (10-11ft).....	\$595.00	\$567.00
3.50m (11-12ft).....	\$630.00	\$609.00

Note - Columnar Spruce are measured to the top of the tree.

Spruce continued on next page...

CONIFEROUS TREES

SPRUCE cont.

Fat Albert Spruce (*Picea pungens* 'Fat Albert')

Broad based tree with a wide pyramidal form and bright blue needles.

Height: 10 m Spread: 4 m

10 gal.....\$168.00

15 gal.....\$196.00

2.00m (6-7ft).....\$350.00

2.25m (7-8ft).....\$385.00

2.50m (8-9ft).....\$418.00

3.00m (9-10ft).....\$462.00

3.25m (10-11ft).....\$488.00

3.50m (11-12ft).....\$525.00

**Globe Blue Spruce** (*Picea pungens* 'Globosa')

Globe-shaped shrub with bright blue needles. Top-graft forms available.

Height: 2 m Spread: 1.5m

Potted

5 gal..... \$105.00

7 gal..... \$138.00

10 gal..... \$168.00

15 gal..... \$196.00

Field Grown Top Graft

50mm (3-4ft spread).....\$348.00

60mm (4-5ft spread).....\$371.00

70mm (4-6ft spread).....\$418.00

**Hoopsii Blue Spruce** (*Picea pungens* 'Hoopsii')

Shimmering blue evergreen. Narrow spire shaped, with large stout branches.

Very long silvery-blue needles. Bluest color of any evergreen. Grey bark.

Height: 10 m Spread: 4 m

2.00m (6-7ft).....\$350.00

2.25m (7-8ft).....\$385.00

Fun Fact - The Fat Albert spruce is known for its dense, broad upright pyramidal shape, closely spaced branches, and a steel blue needle color.

CONIFEROUSTREES

SPRUCE cont.

Montgomery Spruce (*Picea pungens* 'Montgomery')

Conical shape. Dwarf slow growing spruce with bright grey- blue foliage

Height: 2 m Spread: 1.2 m

15 gal.....\$210.00

1.75m (5-6ft)..... \$385.00

2.00m (6-7ft)..... \$441.00

2.25m (7-8ft)..... \$483.00

2.50m (8-9ft).....\$539.00

Obovata Spruce (*Picea* 'Obovata')

Conical crown, with drooping branches. Bark is orange-brown color, and the needles are a shiny green-grey color. Also known as Siberian Spruce.

Height: 15 m Spread: 4m

Qty. 1-19 Qty. 20+

15 gal.....\$210.00

2.00m (6-7ft).....\$385.00 \$371.00

2.50m (8-9ft).....\$448.00 \$427.00

3.00m (9-10ft).....\$518.00 \$490.00

3.25m (10-11ft)..... \$558.50

CONIFEROUS TREES

PINE

Bristlecone Pine (*Pinus aristata*)

Long-lived, slow growing, shrubby tree with white flecked green needles. Unique specimen for rock gardens. Performs well at high altitudes.

Note - Bristlecone Pine are measured to the top of the tree

Height: 4 m Spread: 2 m

- 1.75m (5-6ft).....\$413.00
- 2.00m (6-7ft).....\$483.00
- 2.25m (7-8ft).....\$558.50
- 2.50m (8-9ft).....\$616.00

Lodgepole Pine (*Pinus contorta latifolia*)

Native to Alberta, this extremely hardy tree has soft green needles which turn a **chartreuse color in the winter**. **Alberta's official tree.**

Height: 12 m Spread: 3 ms

- 2.00m (6-7ft).....\$343.00
- 2.25m (7-8ft).....\$378.00
- 2.50m (8-9ft).....\$462.00
- 3.00m (9-10ft).....\$511.00
- 3.25m (10-11ft).....\$558.50
- 3.50m (11-12ft).....\$595.00
- 3.75m (12-13ft).....\$644.00

 **Limber Pine** (*Pinus flexilis*)

Hardy native Pine to Alberta has flexible twigs & 5 soft needles in cluster. More resistant to salt and winterburn than other 5 needled pines. *Seed collected from Blairmore, Alberta.*

Height: 11m Spread: 7m

- 2.00m (6-7ft)..... \$427.00
- 2.25m (7-8ft)..... \$460.50
- 2.50m (8-9ft)..... \$502.50
- 3.00m (9-10ft).....\$546.00

Pine continued on next page...

Fun Facts - A Limber Pine in Eagle Cap Wilderness, Oregon, has been documented at over 2000 years old, and another confirmed at 1140 years old. In California, Bristlecone Pine are believed to be 5,000 years old.

CONIFEROUS TREES

PINE cont.

Ponderosa Pine (*Pinus ponderosa*)

Cylindrical shaped pine with attractive cinnamon bark and 3 long, green needles. Our selection is from a hardy Brooks, Alberta seed source.

Height: 16 m	Spread: 6 m
2.00m (6-7ft).....	\$334.00
2.25m (7-8ft).....	\$378.00
2.50m (8-9ft).....	\$399.00
3.00m (9-10ft).....	\$476.00
3.25m (10-11ft).....	\$525.00
3.50m (11-12ft).....	\$553.00

Scots/Scotch Pine (*Pinus sylvestris*)

Pyramidal shaped pine tree with bluish-green, sharp needles. Attractive orange bark color on older trees.

Height: 13 m	Spread: 5 m
2.00m (6-7ft).....	\$334.00
2.25m (7-8ft).....	\$357.00
2.50m (8-9ft).....	\$406.00
3.00m (9-10ft).....	\$476.00

Mountain Pine (*Pinus uncinata*)

Dense evergreen tree with dark green needle color that is retained all year long. Excellent for use in an entry feature, rock garden, or for screening.

Height: 6 m	Spread: 2.5 m
5 gal.....	\$68.00
10 gal.....	\$138.00
1.50m (5-6ft).....	\$334.00
2.00m (6-7ft).....	\$418.00
2.25m (7-8ft).....	\$446.00
2.50m (8-9ft).....	\$483.00
3.00m (9-10ft).....	\$544.00

Pine are distinguished from each other by # of needles in a bundle:

2 Needle Pines: Lodgepole, Mountain, Mugho, Scots Pine

3 Needle Pine: Ponderosa Pine

5 Needle Pines: Bristlecone, Limber, Swiss Stone, White Pines

CONIFEROUS TREES

WICHITA BLUE JUNIPER

Wichita Blue Juniper (*Juniperus scopulorum* ‘Wichita’)

Light blue, foliage color & pyramidal form. Old-fashioned & dependable.

Height: 4 m Spread: 1.5 m

5 gal.....	\$ 72.75
7 gal.....	\$124.50
10 gal.....	\$166.50
15 gal.....	\$217.00
20 gal.....	\$273.00
2m (6ft).....	\$336.00
2.25m (7ft).....	\$378.00
2.50m(8ft).....	\$418.50

Other upright juniper varieties and prices located on page 42.

FIR

 Douglas Fir (*Pseudotsuga menziesii*)

Tall, dense pyramidal native evergreen with smooth grey bark & flat needles. *Seed collected from Shaganapi Golf Course, in Calgary, Alberta.*

Height: 4m Spread: 1.5m

2.00m (6ft).....	\$385.00
2.25m (7ft).....	\$420.00
2.50m(8ft).....	\$455.00

Fun Facts - The lifespan of a Douglas Fir tree is between 500 to 1000 years. Because of the massive size of the tree, its wood is highly valued. Mature Douglas Fir trees have thick enough bark to survive forest fires, with the only damage being blackened bark.

DECIDUOUS TREES

MAPLE

Amur Maple (*Acer ginnala*)

Graceful, single stem, small tree with maple-shaped, three-lobed leaves. Attractive red foliage color in fall.

Height: 5 m Spread: 3 m

 Flame Amur Maple (*Acer ginnala* ‘Flame’)

Hardy, small tree. Blazing red color in fall and bright red fruit in summer.

Height: 6m Spread: 6m

 Sensation Maple (*Acer negundo* ‘Sensation’)

A.K.A Manitoba Maple. Rounded crown shade tree, with shades of red in fall.

Height: 10m Spread: 7m

 Autumn Blaze Maple (*Acer rubrum* ‘Autumn Blaze’)

Thick green leaves offer shade, and turn a fiery orange-red in the fall.

Height: 13.5m Spread: 10.5m

Silver Cloud Maple (*Acer saccharinum* ‘Silver Cloud’)

Hardest Silver Maple for the prairies. Green summer leaves turn yellow in fall. Five-lobed foliage has silvery undersides. Silver-gray, smooth young bark.

Height: 15m Spread: 8m

Tatarian Maple (*Acer tataricum*)

Hardy, small tree tolerant of alkaline soil conditions. Red seed pods in fall.

Height: 6m Spread: 5m

 Hot Wings Maple (*Acer tataricum* ‘GarAnn’)

Has dark green foliage throughout the year. Features blazing red seeds in late summer, and fiery fall colors. More tolerant of drought and alkaline conditions than the Amur Maple.

Height: 7.5 m Spread: 6m

 Red Rocket Maple (*Acer tataricum* ‘Red Rocket’)

Narrow upright growth habit. Blazing red fall color, with orange highlights. Red seed pods in late spring. Green foliage emerges red in spring

Height: 9m Spread: 3m

	Qty 1-19	Qty 20+
10 g.....	\$119.00	
15 g.....	\$154.00

Fun Fact - Birch trees have been around since the Ice Age, and their bark was used for construction, crafting, food, medicine, as well as a fire starter.

DECIDUOUS TREES

CARAGANA

Weeping Caragana (*Caragana arborescens* 'Pendula')

Top-graft Caragana with weeping branches, oval leaves & yellow flowers in June.

Height: 1.5 m Spread: 2 m

10 gal.....\$127.00

50mm.....\$278.00

60mm.....\$336.00

Sutherland Caragana (*Caragana arborescens* 'Sutherland')

Narrow shape available as a standard, single stem or multi-stem, clump form.

Excellent seedless tree for vertical screening. Most drought tolerant tree.

Height: 5 m Spread: 1 m

7 gal.....\$91.00

10 gal.....\$114.00

Single Stem Sutherland:

50mm.....\$329.00

60mm.....\$385.00

70mm.....\$427.00

Clump Sutherland:

6-7 ft.....\$320.00

8-9 ft.....\$376.00

9-10ft.....\$427.00

10-12ft.....\$460.00

DECIDUOUS TREES

HAWTHORN

Clump Fleshy Hawthorn (*Crataegus succulent*)

Glossy green foliage with white showy flowers. Produces sweet, bright red sticky fruit that is used to make jellies.

Height: 6m

Spread: 1.5m

	Qty. 1-19	Qty. 20+
6-8ft.....	\$266.00	\$252.00

Toba Hawthorn (*Crataegus x mordenensis* 'Toba')

Double white flowers which turn to pink. Lobed leaves and attractive bark color.

Height: 5 m

Spread: 3 m

Snowbird Hawthorn (*Crataegus mordenensis* 'Snowbird')

Glossy green, serrated leaves with double white flowers in June followed by red ornamental fruit.

Height: 6 m

Spread: 3 m

	Qty. 1-19	Qty. 20+
10 gal.....	\$119.00	
50mm.....	\$371.00	\$357.00

100mm.....	\$558.50

DECIDUOUS TREES

ASH

Calypso White Ash (*Fraxinus americana* ‘Calypso’)

Newer cultivar with a narrow growth habit. Attractive purple fall foliage color.

Height: 10 m Spread: 5 m

Manchurian Ash (*Fraxinus mandshurica* ‘Mancana’)

Dense, oval canopied tree. Attractive golden yellow fall foliage color.

Height: 10 m Spread: 5 m

Northern Gem Ash (*Fraxinus* x ‘Northern Gem’)

Cross between Black and Manchurian Ash. Globe-shaped with good fall color.

Height: 10 m Spread: 7 m

Northern Treasure Ash (*Fraxinus* x ‘Northern Treasure’)

Cross between Manchurian & Black Ash. Tall upright form used for street trees.

Height: 13 m Spread: 5 m

Foothills Green Ash (*Fraxinus pennsylvanica* ‘Heuver’)

Seedless selection of Green Ash. Oval form, bright gold fall color. Great for shade or streets, and is low maintenance.

Height: 15 m Spread: 8 m

Patmore Green Ash (*Fraxinus pennsylvanica* ‘Patmore’)

Seedless selection of Green Ash. Upright growing with dark green leaves. Yellow foliage in fall. Great for shade or streets. Low maintenance.

Height: 15 m Spread: 6 m

Prairie Spire Green Ash (*Fraxinus pennsylvanica* ‘Rugby’)

Seedless selection of Green Ash. Tight, narrow, upright growing shade tree. Superb golden fall color. Low maintenance, great for front yard or smaller yards.

Height: 15 m Spread: 4 m

	Qty. 1-19	Qty. 20+

FLOWERING CRAB APPLES

Big River Crab (*Malus 'Big River'*)

Bronze-green foliage with pink flowers in spring. Hardy upright form.

Height: 5 m

Spread: 3.5 m

 Columnar Crab (*Malus baccata 'Columnaris'*)

Green foliage with white flowers and red bark. Columnar, narrowest form.

Height: 6 m

Spread: 1.5 m

Dolgo Crab (*Malus 'Dolgo'*)

Green foliage with white flowers followed by red, edible crabapples for jelly.

Height: 6 m

Spread: 5 m

 Ambassador Crab (*Malus 'DurBy'*)

Narrow dense crown, purplish leaves & pink flowers. High disease resistance.

Height: 7.5 m

Spread: 4.5 m

 Courageous Crab (*Malus 'DurLawrence'*)

Early pink flowers. Broad upright growth. Leaves start bronze & change to green.

Height: 4.5 m

Spread: 2 m

 Gladiator Crab (*Malus 'Gladiator'*)

Newer columnar crab cultivar with glossy purple foliage & pink flowers.

Height: 6 m

Spread: 2.5 m

 Emerald Spire Crab (*Malus 'Jefgreen'*)

Columnar form. Pink spring flowers leading to red fall fruit. Disease free foliage.

Height: 4.5 m

Spread: 2 m

Flowering Crabs continued on next page...

DECIDUOUS TREES

FLOWERING CRAB APPLES cont.

Starlite Crab (*Malus 'Jeflite'*)

White flowers, dark green leaves, and small red fruit. Brilliant yellow fall color.
Height: 4.5 m Spread: 4.5 m

Purple Spire Crab (*Malus 'Jefspire'*)

Columnar form. Pink flowers. Purple fall fruit. Intense purple fall colored leaves.
Height: 4.5 m Spread: 2 m

Pink Spire Crab (*Malus 'Pink Spire'*)

Red-green foliage, pink flowers & nice bark. Upright, very floriferous cultivar.
Height: 5 m Spread: 3 m

Rosthern Crab (*Malus 'Rosthern'*)

Green foliage with white flowers and tiny fruit. Columnar, narrow form.
Height: 5 m Spread: 2 m

Rudolph Crab (*Malus 'Rudolph'*)

Bronze foliage with reddish pink flowers and small fruit.
Height: 5m Spread: 4m

Selkirk Crab (*Malus 'Selkirk'*)

Bronze foliage with pink flowers. Hardy tree has persistent fruit. Limited supply.
Height: 5 m Spread: 4 m

Shaughnessy Cohen Crab (*Malus 'Shaughnessy Cohen'*)

Red-green foliage with pink flowers and red fruit. Slow growing cultivar.
Height: 4.5 m Spread: 3.5 m

Spring Snow Crab (*Malus 'Spring Snow'*)

Green foliage with white flowers & no fruit drop so great for medians & patios.
Height: 5 m Spread: 4 m

Thunderchild Crab (*Malus 'Thunderchild'*)

Purple foliage, pink flowers & ornamental crabs. Hardy & resistant to fire blight.
Height: 5 m Spread: 3.5 m

5 Star Trees LTD.

DECIDUOUS TREES

EATING APPLES *Prairie Hardy and excellent for eating/cooking.*

Battleford (*Malus 'Battleford'*) Height: 6m / Spread: 6m

Ripens late August. Flowers white with pink tint. Fruit is yellow/green with red blush.

Fall Red (*Malus 'Fall Red'*) Height: 5m / Spread: 5m

Ripens mid to late September. Flowers white with pink tint. Large sized, dull red fruit.

Goodland (*Malus 'Goodland'*) Height: 6m / Spread: 6m

Ripens mid September. Flowers white with pink tint. Medium sized red/yellow fruit.

Haralson (*Malus 'Haralson'*) Height: 4m / Spread: 4m

Ripens early October. Flowers white with pink tint. Medium sized red fruit.

Harcourt (*Malus 'Harcourt'*) Height: 4.5m / Spread: 4.5m

Ripens late August. Flowers white with pink tint. Bright red fruit.

Hardi-Mac (*Malus 'Hardi-Mac'*) Height: 4.5m / Spread: 4.5m

Ripens mid September. Flowers white with pink tint. Medium size, bright red fruit. Local to Calgary. Super crispy and juicy, with distinctive sweet flavor.

Heyer #12 (*Malus 'Heyer #12'*) Height: 4.5m / Spread: 4.5m

Ripens late August. Flowers white with pink tint. Medium sized fruit is yellow with green tint.

Honey Crisp (*Malus 'Honeycrisp'*) Height: 5m / Spread: 4m

Ripens late September. Flowers white. Large sized red fruit. Super crisp, sweet and juicy.

Norkent (*Malus 'Norkent'*) Height: 7m / Spread: 4m

Ripens early September. Flowers white with pink tint. Medium sized fruit is green with red streaks.

Norland (*Malus 'Norland'*) Height: 4.5m / Spread: 4.5m

Ripens late August. Flowers white with pink tint. Medium sized fruit is red with slight yellow blush.

Parkland (*Malus 'Parkland'*) Height: 4.5m / Spread: 4.5m

Ripens mid August. Flowers white with pink tint. Fruit color is yellow/green with red blush.

Rescue Apple (*Malus 'Rescue'*) Height: 4.5m / Spread: 4.5m

Ripens early August. Flowers white with pink tint. Small red fruit, with yellow blush.

September Ruby (*Malus 'September Ruby'*) Height: 4.5m / Spread: 4.5m

Ripens Sept. to early Oct. Flowers white with pink tint. Large bright red fruit, with green ribbing.

12-14 ft.....	\$427.00	\$413.00
14-16ft.....	\$474.00	\$460.00

Fun Facts - The Shuswap people used boiled Aspen branches as a cleaner for guns, traps, and buckskins. Hunters would wash themselves in this to remove human odor. The Okanagan people predicted storms when aspen leaves quivered with no perceptible wind. Aspen wood is exported as chopsticks.

DECIDUOUS TREES

COTTONWOOD/POPLAR

Lance-leaf Cottonwood (*Populus x acuminata*)

Native tree has lance leaves with sharp tips. Good sub for Plains Cottonwood.

Height: 20 m Spread: 6 m

Narrow-leaf Cottonwood (*Populus angustifolia*)

Native upright, narrow tree with willow-like leaves.

Height: 12 m Spread: 4 m

Assiniboine Poplar (*Populus x 'Assiniboine'*)

Upright growing tree with noticeable leaf buds. Good disease resistance.

Height: 12 m Spread: 6 m

Byland Green Poplar (*Populus x 'Byland Green'*)

Fast growing tree for our region. Upright with a straight trunk.

Height: 15 m Spread: 7 m

Northwest Poplar (*Populus x jackii 'Northwest'*)

Large wide, fast growing, old-fashioned tree for acreages and large parks.

Height: 20 m Spread: 12 m

Okanese Poplar (*Populus x 'Okanese'*)

Hardy, fast growing seedless poplar. Disease resistant, cold and drought tolerant.

Height: 18m Spread: 8m

Tristis Poplar (*Populus x 'Tristis'*)

Narrower tree with fragrant balsamic buds. Good sub for native Balsam Poplar.

Height: 12m Spread: 7m

 Sundancer Poplar (*Populus 'ACWS151'*)

Columnar, fast growing, male variety. Tolerant of worst growing conditions.

This variety developed for high disease resistance. Great for windbreak/shade.

Height: 12m Spread: 3m

Qty. 1-19 Qty. 20+

Aspen, Cottonwood & Poplar are all in the same *Populus* Genus.

DECIDUOUS TREES

EATING CHERRY - Prairie Hardy

Evans Cherry (*Prunus cerasus* 'Evans')

Produces bright red, enticing fruit, that ripens in late summer. Great for eating, pies and jelly. White blossoms in spring. Glossy green foliage. Similar bark to Nanking Cherry, which may be used for cross pollination. Also is self pollinating.

Height: 4 m

Spread: 2 m

Romeo Cherry (*Prunus* 'Romeo')

Best cherry for juicing. Good for eating/processing. Dark red-black fruit ripens in late summer/early fall. White blossoms in spring. Glossy green foliage. Self pollinating. Romantic series.

Height: 2.5 m

Spread: 2.5 m

Juliet Cherry (*Prunus* 'Juliette')

Excellent for eating/preserves. Dark red cherry, ripening in summer. White spring blossoms. Glossy pointed foliage turning yellow in fall. Self pollinating. Romantic series.

Height: 2.5 m

Spread: 2.5 m

Cupid Cherry (*Prunus* 'Cupid')

Early showy clusters of fragrant white flowers, with large black to dark red sweet, sharp flavored fruit in late summer/early fall. Great for eating / processing. Self pollinating. Romantic Series

Height: 2.5 m

Spread: 1.25 m

Crimson Passion Cherry (*Prunus* 'Crimson Passion')

Produces excellent sweet eating or processing cherries in late summer. Highest sugar content. White blossom clusters in spring. Glossy green foliage. Self pollinating. Romantic Series.

Height: 1.5 m

Spread: 1.5 m

Carmine Jewel Cherry (*Prunus* 'SK Carmine Jewel')

Early dark red tart fruit. High sugar for eating, pies and preserves. White blossom clusters in spring. Glossy green foliage. Self pollinating. Romantic Series.

Height: 2m

Spread: 1 m

CONIFEROUS SHRUBS

CHINESE/HIMALAYAN JUNIPERS

Daub's Frosted Juniper (*Juniperus chinensis* 'Daub's Frosted')

Newer cultivar with blue-green foliage frosted with yellow tips.

Height: .3 m Spread: 1.5 m

Gold Coast Juniper (*Juniperus chinensis* 'Gold Coast')

Golden yellow foliage for color contrast all year round. Likes full sun. Old Gold is a very similar, slow growing cultivar.

Height: 1 m Spread: 1.5 m

Mint Julep Juniper (*Juniperus chinensis* 'Monlep')

Mint green foliage on fountain form. Traditional drink of Kentucky Derby Also available as Pompom shape. Prices & sizes on bottom of page 8.

Height: 1 m Spread: 2 m

Blue Star Juniper (*Juniperus squamata* 'Blue Star')

Bright blue needles on star-shaped foliage for color and textural contrast.

Height: .5 m Spread 1 m

Holger Juniper (*Juniperus squamata* 'Holgeri')

New growth is golden yellow backed by deep blue mature foliage.

Height: .5 m	Spread 1 m		
		1-19	20+
	2 gal	\$31.50	\$30.75
	5 gal	\$46.50	\$45.00

Fun Fact - Native Common Junipers, Blue Rug Juniper, Buffalo Juniper, Cologreen Juniper & the Savin Juniper species have greenish, growing to blue, color berries, which are actually round cones. Varieties with berry-like cones are female plants.

CONIFEROUS SHRUBS

CREeping JUNIPERS

Blue Chip Juniper (*Juniperus horizontalis* ‘Blue Chip’)

Bright blue foliage turns purplish in fall. Good ground cover.

Height: .3 m Spread: 2 m

Blue Prince Juniper (*Juniperus horizontalis* ‘Blue Prince’)

Bright blue foliage all year on this low grower native to Alberta.

Height: .15 m Spread: 1.5 m

Blue Rug Juniper (*Juniperus horizontalis* ‘Wiltonii’)

Blue foliage on this lowest growing, trailing juniper with berry-like cones.

Height: .1 m Spread: 2 m

Hughes Juniper (*Juniperus horizontalis* ‘Hughes’)

Grayish-blue, graceful foliage. Attractive color in mass plantings.

Height: .5 m Spread: 2 m

Prince of Wales Juniper (*Juniperus horizontalis* ‘Prince of Wales’)

Green foliage on this hardy shrub that is native to SW Alberta.

Height: .2 m Spread: 2 m

	1-19	20+
2 gal	\$31.50	\$30.75
5 gal	\$46.50	\$45.00

Fun Fact - Juniper trees can be found in some of the most inhospitable landscapes nature has to offer. In the American Southwest, native junipers appear to grow on nothing but rocks. Their versatility have inspired many hardy, adaptable cultivars, that combine toughness with refinement in urban landscapes.

CONIFEROUS SHRUBS

SPREADING JUNIPERS

Arcadia Juniper (*Juniperus sabina* 'Arcadia')

Bright green, lacy foliage.

Height: .4 m Spread: 1.5 m

Blue Danube Juniper (*Juniperus sabina* 'Blue Danube')

Bluish-green foliage on a semi vase-shaped form.

Height: .6 m Spread: 2 m

Broadmoor Juniper (*Juniperus sabina* 'Broadmoor')

Bright green, dense foliage on a mounded form.

Height: .3 m Spread: 2 m

Buffalo Juniper (*Juniperus sabina* 'Buffalo')

Green spidery foliage on this hardy juniper shrub with berry-like cones.

Height: .3 m Spread: 2 m

Calgary Carpet Juniper (*Juniperus sabina* 'Monna')

Bright green foliage on a compact form. Good ground cover in Calgary. Due to cost of procurement, add an extra \$1.00 per plant.

Height: .2 m Spread: 2 m

Moor-Dense Juniper (*Juniperus sabina* 'Monard')

Bright green, denser foliage on a mounded form. A Monrovia selection.

Height: .3 m Spread: 2 m

Savin Juniper (*Juniperus sabina*)

Green foliage on a vase-shaped form with berry-like, blue cones.

Height: .75 m Spread: 2 m

Skandia Juniper (*Juniperus sabina* 'Skandia')

Bright green, feathery foliage on this attractive shrub.

Height: .5 m Spread: 2 m

Tam Juniper (*Juniperus sabina* 'Tamariscifolia')

Green or blue, feathery foliage on this old-fashioned variety.

Height: .6 m Spread: 2 m

		1-19	20+

Larger Wichita Blue Juniper sizes and pricing located on page 15.

CONIFEROUS SHRUBS

COMMON JUNIPERS

Alpine Carpet Juniper (*Juniperus communis* ‘Mondap’)

Green-blue needles on this hardy shrub. A Monrovia introduction.

Height: .2 m Spread: 1.25 m

Effusa Common Juniper (*Juniperus communis* ‘Effusa’)

Green needles on this very hardy, native shrub.

Height: .3 m Spread: 1.5 m

Green Carpet Juniper (*Juniperus communis* ‘Green Carpet’)

Carpet of bright green needles on this hardy prostrate shrub. Berry-like, green-blue cones.

Height: .15 m Spread: .5 m

Repanda Common Juniper (*Juniperus communis* ‘Repanda’)

Green needles on this hardy creeping, semi-prostrate shrub.

Height: .4 m Spread: 2 m

1-19 20+

2 gal \$31.50 \$30.75

5 gal \$46.50 \$45.00

NORWAY SPRUCE

Bird’s-Nest Spruce (*Picea abies* ‘Nidiformis’)

Low shrub with light green needles, flat-topped with a concave center.

Height: .5 m Spread: 1.5 m

Dwarf Norway Spruce (*Picea abies* ‘Pumila’)

Compact evergreen shrub with green foliage and a mounding shape.

Resistant to late spring frosts because needle buds open later than others.

Height: .75 m Spread: 1.5 m

2 gal \$35.25

5 gal \$51.00

7 gal \$67.50

10 gal \$90.00

CONIFEROUS SHRUBS

PINE

Mugho Pine (*Pinus mugo* 'Mughus')

Hardy shrubby pine. Keep compact by cutting candles in half in June. Dark green needle color is retained all year round. Good for screening.

Slowmound Mugho Pine (*Pinus mugo* 'Slowmound')

Slow-growing, true dwarf Mugho Pine with very short green needles. Slowly reaches 1 to 2 ft. tall and wide in 10 years, to 3 ft. at maturity.

2 gal \$38.95

5 gal \$58.50

DECIDUOUS SHRUBS

BARBERRY

Cherry Bomb Barberry (*Berberis thunbergii* ‘Monomb’)
Cherry red, purple foliage with bright red berries in fall. Yellow flowers.

Height: 1 m Spread: 1 m

Concorde Barberry (*Berberis thunbergii* ‘Concorde’)
Dwarf cultivar with dark, grape purple foliage and yellow flowers.

Height: .5 m Spread: .5 m

Emerald Carousel Barberry (*Berberis thunbergii* ‘Tara’)
Green foliage on this shrub turns scarlet red in autumn. Yellow flowers.

Height: 1 m Spread: 1 m

Rose Glow Barberry (*Berberis thunbergii* ‘Rose Glow’)
Rose pink glow over mottled white and green foliage. Red berries in fall.

Height: 1.5 m Spread: 1.25 m

Royal Burgundy Barberry (*Berberis thunbergii* ‘Gentry’)
Burgundy leaves on compact shrub. Yellow flowers. Red berries in fall.

Height: .6 m Spread: 1 m

Ruby Carousel Barberry (*Berberis thunbergii* ‘Bailone’)
Deep, ruby purple foliage on upright stems. Red berries in fall.

Height: 1 m Spread: 1 m

Gold Nugget Barberry (*Berberis thunbergii* ‘Monlers’)
Dwarf shrub with golden yellow foliage and tiny leaves.

Height: .3 m Spread: .5 m

Sunsation Barberry (*Berberis thunbergii* ‘Monry’)
Compact shrub with golden yellow foliage. Orange tint to fall leaf color.

Height: 1 m Spread: 1 m

	1-19	20+

DECIDUOUS SHRUBS

BOXWOOD

Calgary Boxwood (*Buxus x 'Calgary'*) Height: .5m / Spread: .5m
Newer dwarf, broad-leaved evergreen shrub fit for use as a low hedge.

	1-19	20+
2 gal	\$33.50	\$31.00
5 gal	\$51.00	\$49.00

CARAGANA

Common Caragana (*Caragana arborescens*)

Hardy shrub has yellow flowers. Common prairie hedge, drought tolerant.

Height: 5 m Spread: 3 m

	1-19	20+
2 gal	\$22.90	\$21.50
5 gal	\$31.90	\$29.95

Globe Caragana (*Caragana frutex 'Globosa'*)

Attractive globe-shaped shrub. Low maintenance as requires no pruning.

Height: 1 m Spread: 1 m

Pygmy Caragana (*Caragana pygmaea*)

Drought tolerant, spiny shrub. Small yellow flowers in early summer.

Useful as an armed barrier hedge to prevent mammals from passing.

Height: 2 m Spread: 1 m

	1-19	20+
2 gal	\$25.50	\$22.00
5 gal	\$32.95	\$29.95

SASKATOON

Native Saskatoon (*Amelanchier alnifolia*)

Native shrub with white flowers which produces purple, edible fruit.

Named cultivars are available on request by special order.

Height: 3 m Spread: 2 m

	1-19	20+
2 gal	\$24.50	\$23.75
5 gal	\$32.95	\$31.90

DECIDUOUS SHRUBS

DOGWOOD

Silver Leaf Dogwood (*Cornus alba* 'Argenteo-marginata')

Variegated white and green leaves with red stems for winter color effect.

Height: 2 m Spread: 1.5 m

Prairie Fire Dogwood (*Cornus alba* 'Aurea')

Newer cultivar has golden leaf color retained in light shade. Red stems.

Height: 1.5 m Spread: 1.5 m

Bud's Yellow Dogwood (*Cornus alba* 'Buds Yellow')

Green foliage with distinct yellow stems for winter color.

Height: 2 m Spread: 1.5 m

Ivory Halo Dogwood (*Cornus alba* 'Ivory Halo')

Compact shrub with bright red stems. White & green variegated leaves.

Height: 1.5 m Spread: 1.5 m

Siberian Dogwood (*Cornus alba* 'Sibirica')

Green foliage with scarlet red bark. White flowers in summer.

Height: 2 m Spread: 2 m

Kelsey Dwarf Dogwood (*Cornus sericea* 'Kelsey')

Dwarf foliage plant with green leaves & red bark. Shade tolerant.

Height: .75 m Spread: .75 m

Red Osier Dogwood (*Cornus sericea/stolonifera*)

Native shrub with red bark, white flowers and berries. Shade tolerant.

Height: 2 m Spread: 2 m

	1-19	20+
2 gal	\$23.25	\$21.75
5 gal	\$32.25	\$29.95

DECIDUOUS SHRUBS

CRANBERRY

Blue Muffin Arrowwood (*Viburnum dentatum* 'Christom')

Shrub cultivar with glossy leaves and white flowers which turn into blue berries that are appealing to birds. Likes moist shade.

Height: 1 m Spread: 1 m

Mohican Wayfaring Tree (*Viburnum lantana*)

Upright shrub has grayish-green foliage & clusters of cream-white flowers followed by red which turn to black fruit. More compact than the species.

Height: 2 m Spread: 2 m

Nannyberry (*Viburnum lentago*)

Tall upright shrub for background with white flowers and black fruit. First with glossy leaves to turn red-purple in August. Likes moist shade.

Height: 4 m Spread: 2 m

Dwarf European Cranberry (*Viburnum opulus* 'Nanum')

Dwarf foliage plant without flowers. Useful as a low hedge. Three-lobed leaves have good reddish-purple, fall foliage color. Likes moist shade.

Height: .6m Spread: .6 m

Snowball (*Viburnum opulus* 'Roseum' / 'Sterile')

Attractive shrub with showy white flowers shaped like large snowballs. Similar to and good substitute for Annabelle Hydrangea.

Height: 2 m Spread: 1.5 m

Highbush Cranberry (*Viburnum trilobum*)

Tall native shrub with 3 lobed leaves, white flowers & edible red fruit. Prefers part shade & moist soil. Redwing is a cultivar with good color.

Height: 3 m Spread: 2 m

Bailey Compact Cranberry (*Viburnum trilobum* 'Bailey Compact')

Compact shrub with green foliage in summer which turns to red-purple in fall. White flowers are followed by red berries. Good as a low hedge.

Height: 1 m Spread: 1 m

	1-19	20+
2 gal	\$26.25	\$24.75
5 gal	\$31.90	\$29.95

DECIDUOUS SHRUBS

WOLF WILLOW

Wolf Willow (*Elaeagnus commutata*)

Hardy native shrub with silvery foliage. Also known as Silverberry. Small yellow, fragrant flowers followed by dry silver berries.

Height: 2 m	Spread: 2 m		
		1-19	20+
2 gal	\$23.95	\$21.50	
5 gal	\$31.50	\$29.25	

BURNING BUSH

Winged Burning Bush (*Euonymus alata*)

Ridged corky bark & flame red, fall foliage. Creamy flowers & pink pods.

Height: 2 m Spread: 1.5 m

Dwarf Winged Burning Bush (*Euonymus alata* 'Compactus')

More compact form of Winged Burning Bush with flame red, fall foliage.

Height: 1 m Spread: 1.5 m

Fire Ball Burning Bush (*Euonymus alata* 'Fire Ball')

Newer cultivar has flame red fall foliage. Drought resistance when est.

Height: 1.5 m Spread: 1 m

Turkestan Burning Bush (*Euonymus nana* 'Turkestanica')

Semi-evergreen with very narrow leaves. Creamy flowers and pink pods.

Height: 1 m	Spread: 1 m		
		1-19	20+
2 gal	\$30.75	\$28.90	
5 gal	\$41.25	\$39.00	

FORSYTHIA

Northern Gold Forsythia (*Forsythia ovata* 'Northern Gold')

Hardest selection of Forsythia. Early season, bright yellow flowers.

Height: 2 m	Spread: 1.5 m		
		1-19	20+
2 gal	\$23.25	\$21.75	
5 gal	\$31.90	\$29.95	

DECIDUOUS SHRUBS

SEA BUCKTHORN

Sea Buckthorn (*Hippophae rhamnoides*)

Salt and drought resistant shrub with silver linear foliage & orange berries on females. Height: 4 m Spread: 3 m

	1-19	20+
2 gal	\$23.25	\$21.75
5 gal	\$31.90	\$29.95

Hikul Sea Buckthorn (*Hippophae rhamnoides* 'Hikul')

Dense narrow grey-green leaves, with silvery shine. Prefers clay alkaline soil, and is tolerant of pollution, salt and drought once established.

Height: 1.25m Spread: 1.25m

	1-19	20+
2 gal	\$24.50	\$23.50
5 gal	\$33.00	\$32.00

RHODODENDRON

P.J.M. Rhododendron (*Rhododendron* 'P.J.M.')

Broadleaf evergreen shrub with winter flower buds and lavender flowers. Deciduous Azaleas in various flower colors are available by special order.

Height: 1 m Spread: 1 m

	1-19	20+
2 gal	\$32.25	\$30.75
5 gal	\$39.25	\$37.75

MAPLE

Amur Maple (*Acer ginnala*)

Large shrub with three-lobed green leaves that turn scarlet red in the fall.

Height: 5 m Spread: 3 m

	1-19	20+
2 gal	\$24.75	\$23.25
5 gal	\$31.50	\$28.50
7 gal	\$49.50	

Larger Maple sizes and pricing located on page 16.

DECIDUOUS SHRUBS

HYDRANGEA

Annabelle Hydrangea (*Hydrangea arborescens* 'Grandiflora')

Heart-shaped, large green leaves with big clusters of showy white flowers in late summer on new wood. Perennial growth habit. Thrives in shade.

Height: 1 m Spread: 1 m

Peegee Hydrangea (*Hydrangea paniculata* 'Grandiflora')

Oval leaves with conical clusters of pinkish flowers in late summer on new wood. Perennial growth habit. Likes partial shade.

Height: 1 m Spread: 1 m

Pink Diamond Hydrangea (*Hydrangea paniculata* 'Pink Diamond')

Newer hardy shrub has oval leaves with large panicles of white flowers turning pink in late summer on new wood. Likes partial shade.

Height: 1.5 m Spread: 1 m

PinkyWinky Hydrangea (*Hydrangea paniculata* 'Pinky Winky')

Newer unique shrub with huge panicles of two toned flowers emerging white then turning pink in late summer on new wood. Bright red stems.

Height: 1.5 m Spread: 1 m

	1-19	20+
2 gal	\$29.25	\$27.50
5 gal	\$35.95	\$33.50

For specialty Hydrangeas, please add \$5.00 to prices above.

DECIDUOUS SHRUBS

HONEYSUCKLE

Arnold's Red Honeysuckle (*Lonicera tatarica* 'Arnold')

Tall shrub with fragrant reddish-pink blooms followed by red berries.

Height: 2.5 m Spread: 2 m

Sweetberry Honeysuckle (*Lonicera caerulea edulis*)

Creamy white flowers and blue edible fruit in fall which attracts birds.

Height: 1.5 m Spread: 1.5 m

	1-19	20+
2 gal	\$23.95	\$21.75
5 gal	\$31.50	\$29.75

MOCKORANGE

Blizzard Mockorange (*Philadelphus lewisii* 'Blizzard')

Hardy shrub with very fragrant, large single, white flowers.

Height: 1.5 m Spread: 1.25 m

Waterton Mockorange (*Philadelphus lewisii* 'Waterton')

Tall graceful shrub with very fragrant, large single, white flowers.

Height: 2 m Spread: 1.5 m

Minnesota Snowflake Mockorange

(*Philadelphus x virginalis* 'Minnesota Snowflake')

Vase-shaped shrub with very fragrant, large double, white flowers.

Height: 2 m Spread: 1.5 m

	1-19	20+
2 gal	\$24.50	\$21.75
5 gal	\$34.90	\$32.95

DECIDUOUS SHRUBS

NINEBARK

Center Glow Ninebark (*Physocarpus opul.* 'Center Glow')

Newer shrub cultivar with new leaves a glowing chartreuse color.

Height: 2 m Spread: 2 m

Dart's Gold Ninebark (*Physocarpus opul.* 'Dart's Gold')

Color contrast shrub with golden yellow foliage and white blooms.

Height: 1.5 m Spread: 1 m

Diabolo Ninebark (*Physocarpus opulifolius* 'Monlo')

Taller color contrast shrub with purple foliage and pink flowers.

Height: 2 m Spread: 2 m

 Little Devil Ninebark (*Physocarpus opulifolius* 'Donna May')

True dwarf. Dark burgundy foliage with creamy pink blooms. Excellent for small shrub beds

Height: 1.25m Spread: 1.25m

Summer Wine Ninebark (*Physocarpus opulifolius* 'Seward')

More compact shrub than Diabolo with red-purple, wine colored leaves.

Height: 1.75 m Spread: 1.5 m

 TinyWine Ninebark (*Physocarpus opulifolius* 'Tiny Wine')

Dwarf plant with masses of bright pinkish white blooms along branches. Dark, bronze-maroon compact foliage

Height: 1m Spread: 1m

DECIDUOUS SHRUBS

POTENTILLA

Abbotswood Potentilla (*Potentilla fruticosa* ‘Abbotswood’)

Hardy shrub with pure white flowers. Long blooming period.

Height: 1 m Spread: 1 m

Coronation Triumph Potentilla (*Potentilla fruticosa* ‘Coronation Triumph’)

Shrub with bright yellow, numerous flowers. Longest blooming period.

Height: 1 m Spread: 1 m

Gold Drop Potentilla (*Potentilla fruticosa* ‘Gold Drop’)

Dwarf shrub with golden yellow flowers. Fine-textured foliage.

Height: .6 m Spread: .75 m

Goldfinger Potentilla (*Potentilla fruticosa* ‘Goldfinger’)

Vigorous shrub with large golden yellow flowers throughout summer.

Height: 1.5 m Spread: 1 m

Gold Star Potentilla (*Potentilla fruticosa* ‘Gold Star’)

Compact shrub with the largest golden yellow flowers. Likes full sun.

Height: .6 m Spread: .75 m

Katherine Dykes Potentilla (*Potentilla fruticosa* ‘Katherine Dykes’)

Old-fashioned shrub with light yellow flowers. Likes full sun.

Height: 1 m Spread: 1 m

Mango Tango Potentilla (*Potentilla fruticosa* ‘Mango’)

Compact shrub with orange-yellow bicolor flowers throughout summer.

Height: 1 m Spread: 1 m

Potentilla continued on next page...

Fun Fact - *Potentilla fruticosa* represents a group of dwarf shrubs with exceptional flower-habits that are available in a wide range of colors. *Potentilla* has small flowers and produces them from early summer to autumn. *Potentilla* grow best in full sun, and any but a heavy soil. It is a low mound-like plant with good drought resistance and freedom from serious pest problems.

DECIDUOUS SHRUBS

POTENTILLA cont.

Orange Whisper Potentilla (*Potentilla fruticosa* ‘**Orange Whisper**’)

Reliably blooming shrub with light orange flowers throughout summer.

Height: 1 m Spread: 1 m

Pink Beauty Potentilla (*Potentilla fruticose* ‘**Pink Beauty**’)

Mound-shaped shrub with semi-double pink flowers. Takes light shade.

Height: 1 m Spread: 1 m

Primrose Beauty Potentilla (*Potentilla fruticosa* ‘**Primrose Beauty**’)

Mound shaped shrub with creamy-yellow flowers. Likes full sun.

Height: 1 m Spread: 1 m

Red Ace Potentilla (*Potentilla fruticosa* ‘**Red Ace**’)

Low growing, compact shrub with vermilion reddish-orange flowers.

Height: .60 m Spread: .75 m

Sunset Potentilla (*Potentilla fruticosa* ‘**Sunset**’)

Attractive cultivar with orange flowers. Likes full sun.

Height: .75 m Spread: .75 m

Yellow Gem Potentilla (*Potentilla fruticose* ‘**Yellow Gem**’)

Low growing shrub with bright yellow flowers. Likes full sun.

Height: .3 m Spread: 1 m

HARDY SHRUB ROSES

Blanc de Coubert Rose (*Rosa rugosa* 'Blanc de Coubert')

Hardy rose with double white recurrent blooms.

Height: 1.5 m Spread: 1 m

Hansa Rose (*Rosa rugosa* 'Hansa')

Vigorous rose with fragrant double reddish-purple flowers.

Height: 1.5 m Spread: 1.5 m

Persian Yellow Rose (*Rosa* 'Persian Yellow')

Tall rose with double yellow flowers that bloom once in summer.

Height: 1.5 m Spread: 1.5 m

Purple Pavement Rose (*Rosa* x 'Rotesmeer')

Hardy rose with purple flowers. Good compact sub for Hansa.

Height: 1 m Spread: 1 m

Red Leaf Rose (*Rosa rubrifolia*)

Attractive reddish-purple foliage with single pink flowers in summer.

Height: 2 m Spread: 1.5 m

Theresa Bugnet Rose (*Rosa* 'Theresa Bugnet')

Dark red buds open to large double pink fragrant flowers.

Height: 1.75 m Spread: 1.5 m

Prickly Rose (*Rosa acicularis*)

Native shrub with prickly stems & single pink flowers is the floral emblem of Alberta. Prickly & Woods Roses are also available in #5 gal. pots.

Height: 1 m Spread: 1 m

Woods Rose (*Rosa woodsii*)

Native shrub with single pink flowers. Kimberley is a new cultivar.

Height: 1 m Spread: 1 m

SPIREA

Ashleaf/False Spirea (*Sorbaria sorbifolia*)

Fern-like foliage and plumes of creamy white flowers. Vigorous shrub.

Height: 2 m Spread: 2 m

Sem False Spirea (*Sorbaria sorbifolia* 'Sem')

Fern-like foliage and plumes of creamy white flowers. Sem is newer.

Height: 2 m Spread: 2 m

Froebelii Spirea (*Spiraea x bumalda* 'Froebelii')

Vigorous shrub with long lasting pink flowers throughout summer.

Height: .75 m Spread: 1 m

Goldflame Spirea (*Spiraea x bumalda* 'Goldflame')

Compact shrub with golden-red foliage and pink flowers in summer.

Height: .75 m Spread: 1 m

Goldmound Spirea (*Spiraea japonica* 'Goldmound')

Low growing, mounded shrub with bright yellow foliage & pink flowers.

Height: .75 m Spread: 1 m

Little Princess Spirea (*Spiraea japonica* 'Little Princess')

Compact shrub with pink flower clusters. Green leaves turn purple in fall.

Height: .75 m Spread: 1 m

Magic Carpet Spirea (*Spiraea japonica* 'Magic Carpet')

Dwarf shrub with golden-red foliage and pink flowers in summer.

Height: .3 m Spread: .6 m

Neon Flash Spirea (*Spiraea japonica* 'Neon Flash')

Newer shrub with purple-green foliage & bright red flowers in summer.

Height: .75 m Spread: 1 m

Shirobana Spirea (*Spiraea japonica* 'Shirobana')

Compact shrub with pink, red & white flower clusters. Unique tri-color.

Height: .75 m Spread: 1 m

Snowmound Spirea (*Spiraea nipponica* 'Snowmound')

Mound-shaped shrub with snow-white flowers in late spring in June.

Height: 1 m Spread: 1 m

Spirea continued on next page...

PERENNIALS

PERENNIALS

Kinnikinnick, Bearberry (*Arctostaphylos uva-ursi*)

Native evergreen ground cover has pink flowers followed by red berries.

Height: .1 m Spread: .3 m

Silver Mound Sage (*Artemisia schmidtiana* 'Nana')

Foliage plant forms a mound of grayish dissected leaves for color contrast.

Height: .3 m Spread: .5 m

Purple Coneflower (*Echinacea purpurea* 'Magnus')

Pinkish-purple, daisy-like, flower petals in late summer. Likes full sun.

Height: .9 m Spread: .6 m

Stella de Oro Daylily (*Hemerocallis* 'Stella de Oro')

Golden-yellow, repeat blooming, lily-like, fragrant flowers.

Height: .5 m Spread: .6 m

Hosta Lily (*Hosta* 'Cultivars')

Variegated green and white, blue, or golden leaves. Needs partial shade.

Foliage plant yet also has lavender or whitish, lily-like, fragrant flowers.

Height: .3 m Spread: .5 m

Ray Flower (*Ligularia* varieties)

Tall plant with yellow flowers in summer. Needs part shade & moist soil.

Height: 1.25 m Spread: .75 m

Catmint (*Nepeta* species)

Spikes of violet-blue blooms in summer. Fragrant foliage. Likes full sun.

Height: .6 m Spread: .6 m

Autumn Joy Stonecrop (*Sedum spectabile* 'Autumn Joy')

Succulent foliage with pink flowers in late summer. Needs full sun & heat.

Height: .4 m Spread: .4 m

1 gal \$13.50

2 gal \$20.95

GRASSES

GRASSES

Bulbous Oat Grass (*Arrhenatherum bulbosum*)

Clump forming, ornamental grass with variegated white & green leaves.

Height: .5 m Spread: .5 m

Avalanche Grass (*Calamagrostis acutiflora* ‘Avalanche’)

New cultivar with variegated white & green leaves. Similar to Overdam.

Height: 1 m Spread: .75 m

Eldorado Grass (*Calamagrostis acutiflora* ‘Eldorado’)

Newer Feather Reed Grass variety with variegated green and gold leaves.

Height: 1 m Spread: .75 m

Overdam Grass (*Calamagrostis acutiflora* ‘Overdam’)

Variegated green and white leaves. Avalanche is newer and similar.

Height: 1 m Spread: .75 m

Elijah Blue Fescue (*Festuca glauca* ‘Elijah Blue’)

Clump forming grass with blue foliage. Bluest color in full sun.

Height: .25 m Spread: .25 m

Sea Urchin Fescue (*Festuca amethystina* ‘Sea Urchin’)

Clump forming grass with aquamarine foliage. Purple seed stalks.

Height: .25 m Spread: .25 m

Siskiyou Blue Fescue (*Festuca idahoensis* ‘Siskiyou’)

Fine-textured, sprawling grass with powdery blue leaves. Likes full sun.

Height: .25 m Spread: .30 m

Ribbon Grass (*Phalaris arundinacea*)

Spreading grass with variegated white and green leaves. Fast growing.

Strawberries & Cream is a variety that we carry.

Height: .75 m Spread: 1 m

Shenandoah Switch Grass (*Panicum virgatum* ‘Shenandoah’)

Bluish-green foliage with red tinge. Good reddish-orange, leaf fall color.

Height: 1 m Spread: .75 m

1 gal \$13.50 \$12.50

2 gal \$18.50 \$17.99

5 gal \$29.75 \$27.50

Care Instructions For Newly Installed Trees

In order to keep your new trees alive and healthy, there is some maintenance involved. For the first 2 years, your tree will require water and nutrients, that you must supply. Every tree is different, and have their own specific needs that should be researched before purchasing. Below are basic tips to encourage health and growth of your new tree:

During the warm months, you should be watering 2 or 3 times a week. If you have a water well around your tree, fill it with water, and allow to drain into the roots. If no water well is present, place your garden hose a few feet from the trunk, and turn the water to a trickle for 15-25 minutes.

Most issues incurred with new trees are water related - either too much, or not enough. When in doubt, wait a few days after watering, and dig down about a foot deep, beside the rootball. The soil should feel moist to the touch - it should not feel hard and dry, nor sloppy and muddy. Hard, dry soil indicates you need to increase the water the plant is receiving. Sloppy, muddy soil indicates you need to decrease the water the plant is receiving.

If you have a newly installed irrigation system, or new sod that is seeing frequent water, keep an eye on your trees, as this is a circumstance that can cause your trees to drown.

Fertilizing is highly recommended in the spring. Do not fertilize trees in the fall, as this may promote more growth, and the tree may not shut down for winter. We advise you to use a 20-20-20 fertilizer, or a 10-52-10 root starter for any newly installed plant material. Please note that all fertilizers are different. Be sure to read and follow instructions regarding application.

In the fall, newly installed deciduous plant material will turn to their fall colors early, and newly installed coniferous plant material will experience some fall needle shed.

When the first few winter frosts occur, it is wise to stop watering. This is when the trees stop growing, and starts shutting down for winter.

When the ground starts to freeze, typically in late October or early November, you should water your tree one last time. Leave your garden hose a foot or so away from the trunk, on a slow trickle for around half an hour. This will ensure the roots of the tree receive water for the winter.

Shelterbelt Program

During the month of May we offer potted trees for pickup or installation. We established a SHELTERBELT program in 1992. It has proven to be a cost effective and successful way of establishing a windbreak on your property. For 2017, we will once again be offering the following:

<u>Height</u>	<u>Size</u>	<u>Tree Name</u>	<u>\$Pick-up</u>	<u>\$Installed</u>
4-7ft.	2gal	Branched Misc. Poplar	\$24.95 ea.	\$40.95 ea.
2-5ft.	2gal	Branched Trembling Aspen	\$24.95 ea.	\$40.95 ea.
2-4ft.	2gal	Common Caragana	\$15.99 ea.	\$31.99 ea.
2-4ft	5gal	Common Caragana	\$19.99 ea.	\$35.99 ea.

The installed price includes the tree, delivery, & installation. In order to keep the above prices, there is a minimum order of 50 trees mix or match. Smaller orders may be placed and picked up, at regular book price

Colorado Spruce seedlings are also available, along with many other potted and bareroot varieties of proven shelterbelt shrubs, such as Lilacs and Caraganas. Please call for available sizes and pricing of these items.

Drip Irrigation Program

If you have decided to install trees and shrubs on your property, you should be aware that newly planted trees & shrubs need to be watered three times a week for the first few years until they are well established. This is the most important aspect of ensuring your tree's survival. **In the past we have had a large number of inquiries about the most efficient way to water 50 or more trees.** We use drip irrigation in our nurseries and highly recommend it if you are watering trees that are spread over a large area. It is easy to install, basically maintenance free, no need to drain it for the winter, and does not require large volumes of water, allowing wells to easily supply it. It waters only the tree, hooks up to a garden hose, and is relatively inexpensive.

Emitters - 8 litre per hour	\$0.99 ea.
Garden Hose Adaptor	\$4.95 ea.
Drip Tube Roll - 1000 ft of 1/2"	\$250.00 ea.
